

Student's Choice Essays (Semesters I & II)

Your student's choice essays should be writing you've completed that is not already included in the portfolio. It may not be poetry and it should be a strong example of your writing ability. It may be from another class, just be sure you have met the same expectations you would have in your English classes (cite research, use complete/grammatically correct sentences, etc.) Beyond that, the choice is yours.

Some things to double check:

- Make sure any research is cited (MLA Format).
- Make sure this is a strong example of your writing ability.
- Make sure this is not another paper already required.
- As always, make sure all work is entirely your own - no plagiarism.
